Hello All,

Yes I fully support the new hospital.

Kind regards

[REDACTED]

I will keep this short

During the first consultation the majority said they wanted to keep our two hospitals.

This was ignored, so the only conclusion is consultations are pure PR and our opinion means nothing unless it is in step with your, which means they are fake.

Your Sincerely

[REDACTED]

Hopefully you will expand the number of beds, massively. Have you considered the effect the proposed garden villages will have on bed need?

Think you need to reconsider the size and services that will be needed.

Concerned,  
[REDACTED]

TO WHOM IT MAY CONCERN

We need to keep Lydney Hospital so we have a hospital either side of the Forest especially this time of year when the weather can make it impossible to get to Cinderford.

It also provides beds for locals to come to on their journey of recuperation and eventually home.

We need to spend the money on improving the present hospitals and making them more up to date.

Please, please, please rethink your decision.

DEAR SIRs + Madams,

RE: The Above.

Firstly, you all know this citizen's consultation is futile. Decisions have already been made of what is to happen. The people's voice is Never heard. Look at the Disastrous Referendum of 2016 + the state of England <sup>BRITAIN</sup> with regard to this Government + the Brexit + Covid fiascos.

Secondly, just look at the COST of this consultation & survey, esp. re: the F.O.D. & far too many options & Avenues for the 'common' people to process. New Medical facilities should never have been processed to CINDER-  
FORD. Two Buses to get to get there, &

the Dilke Hosp. Diabolical situation  
if you dont drive & have no-one to  
transport you. Stop trying to  
specialise & have a cross section  
of facilities for each ailment at  
each venue. Cottage Hospitals are  
vitally important to village &  
small town life. I know this  
view will not have any impact on  
what is to happen in the future.

I'm too old now to benefit, but my  
children & grandchildren will  
suffer & pay the consequences.

Thankyou for the opportunity any-  
way. Rant over. PS Just had a full  
liver scan due to recent diagnosis of  
diabetes. 2 Brain surgeries at  
Bristol Southmead resulting in numerous  
health probs. No stranger to hospital  
procedures. Yours faithfully

Dear Sir,

I the above would love to hear about all the brilliant work you are doing to save lives like mine? In Nov 82 I had a serious P.T.C. Where upon I was left with serious head trauma i.e. in a coma and multiple fractures? It has made me disabled mentally and physically. After 18 months I went back to my job but couldn't cope with it at all. I was medically discharged and went on benefits?

Much to my regret!

I have to thank you all for

P.T.O.

now I would like to [redacted]  
book some more [redacted]  
and that at [redacted] 201  
would be all [redacted] 10/10  
[redacted]

Dear Feedback [redacted]

I am so glad that  
we're having a decent  
hospital at long last?

I have lived in FOD all  
my life I was born at Dilke  
hospital [redacted].

I have been to the Dilke &  
Lydney hospitals in the late  
evening without success we  
had to take the patient to  
Gloucester A+E? The one patient  
had a severe gash on her  
foot I bandaged it up but  
she could of bled to death  
she was uncontractable P70.

Panicking? her heart was racing causing more blood loss? I had to hold her down while the doctor stitched her foot.

She's well now thanks!
